

CULTURE MASK

1

Cultural Mask Translation Project Intro

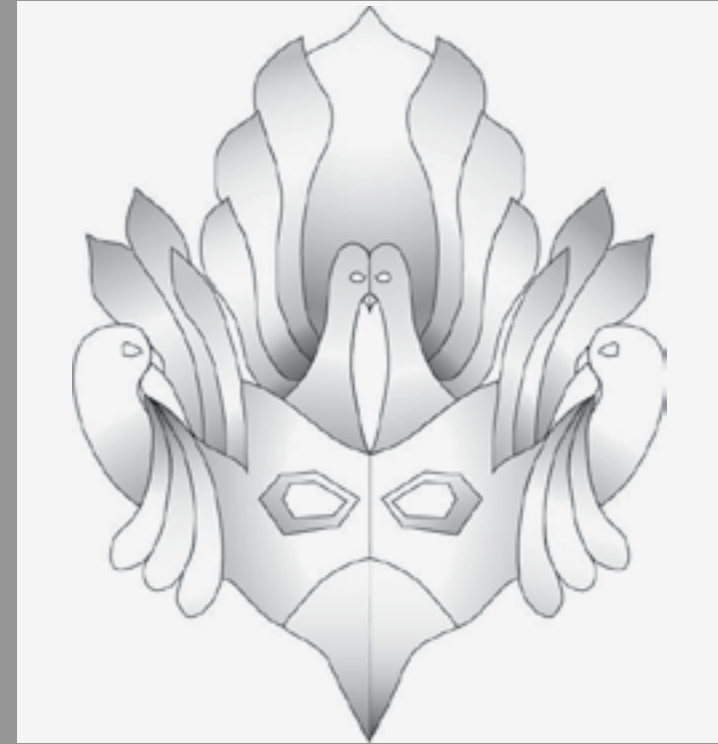

Translate research findings of cultural mask images into new 2D and 3D designs.
Choose two of the researched masks to combine into a new mask design.

- p1 Mexico mask
- p2 Venetian carnival mask
- p3 Venetian Bauta mask
- p4 Sri-lanka peacock
- p5 Venetian carnival mask
- p6 Egypt cat mask

2) I chose Venetian Bauta mask and the Sri-Lanka Peacock mask to combine into a new mask design. These two masks both have bird elements while looks quite different.

Finalizing Drawing Into Vector Image

2 Ideation & hand-drawn Concept

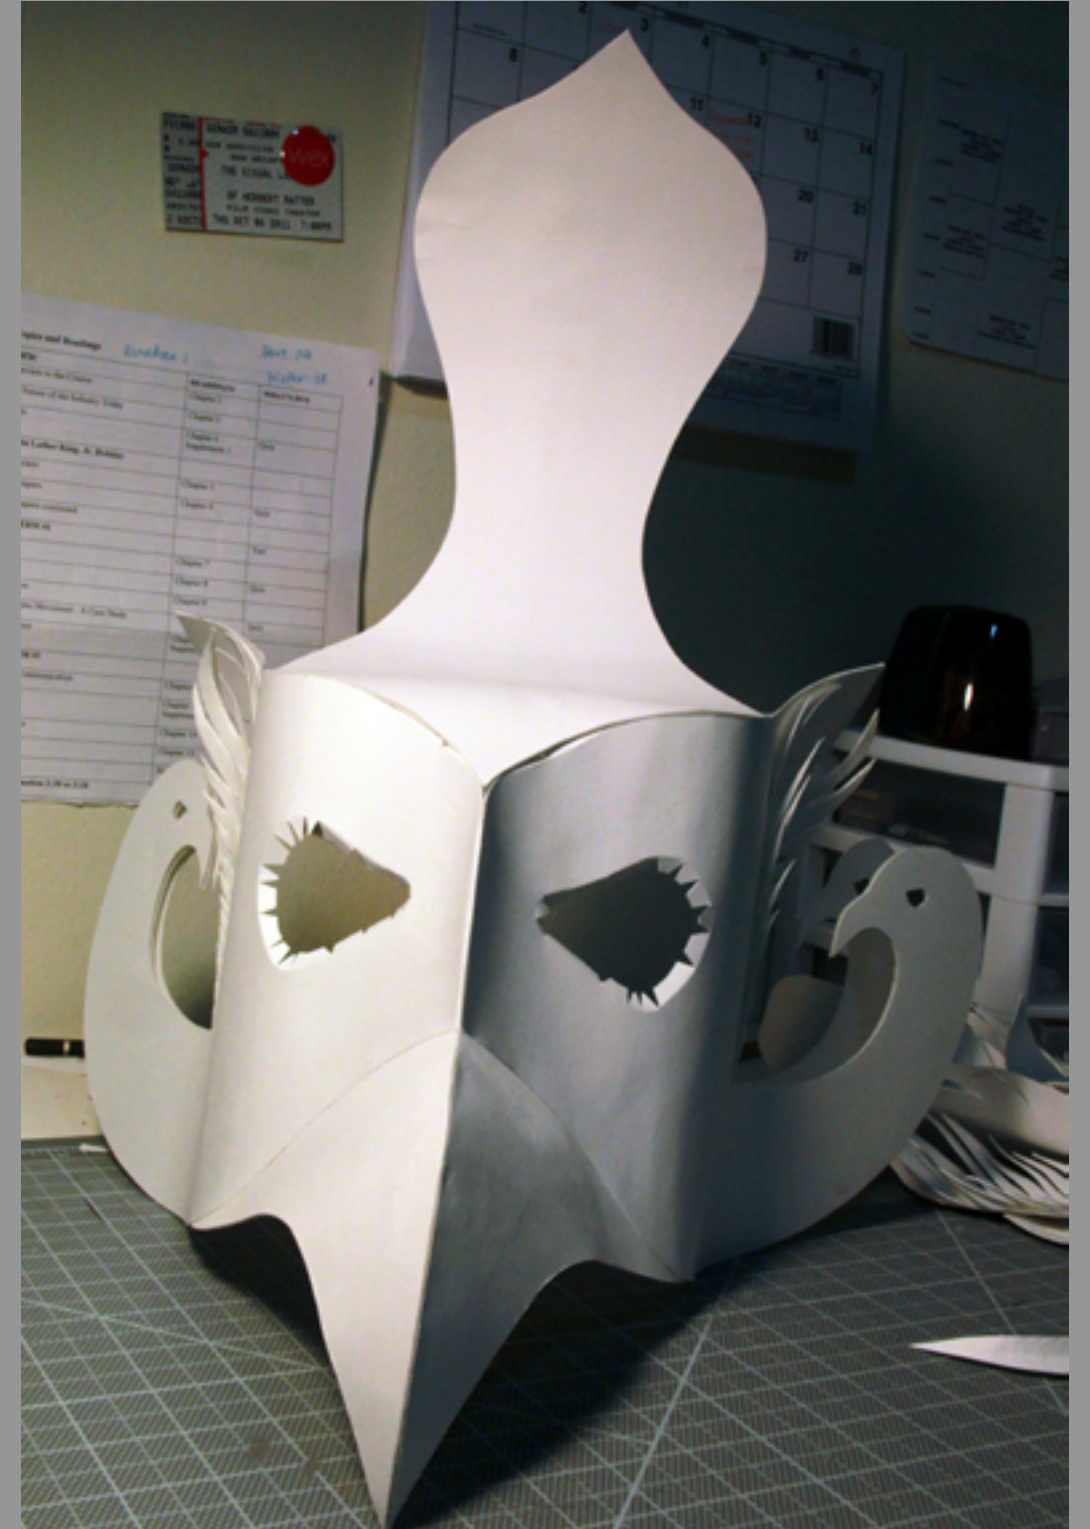

3) After arriving at a final hand-drawn concept I digitized my drawing into a vector image using Illustrator. This will help improve accuracy when translating the drawing into 3D plane (Bristol) and 3D line (wire) objects.
